It's better to be left than never to have been loved

Love is a magic,a feeling of 'forever' in your heart which is worth living for.It's great when the person you love loves you back.But it's difficult when he/she leaves you.The pain you feel..it hurts a lot but that's life.

Although it hurts to have your heart broken by your beloved I do think that it's better to be left than never to have been loved.Because love is a feeling which must be felt,it's an unfotgettable emotion which changes your life forever. Love is one of the few thins which can make your life liveable.To be in love and to be loved is something which can change you,which can make you realize a lot of thins and most of all love makes u one happy person who knows what he lives for and what he wants.Naturally love makes people happy and when they lose it,when they're left by their beloveds their lives somehow become meaningless.But it shouldn't be like that.When you get you heart broken you can turn your back on tomorrow and live yesterday, or you can be happy for tomorrow because of yesterday.Of course,you could find it hard to stand the pain,to look up and go on but you should do so..Because that pain is less hurtful than the pain you feel when you're lonely.It's better to be left than never to have been loved for if you've been loved you'll have had some great moments,unforgettable memories with your beloved which would carry you through all the pain and difficulties.

May be most of us think that it's better never to been love than to be left for in that way you wouldn't have felt all the pain,wouldn't have cried all the tears.But getting your heart broken isn't the worst thing..'heart was made to be broken..the worst thing in life is being lonely.Loneliness is the scariest thing there is.
